

WARRANTY

OCCU-SMART® FIXTURE WARRANTY

All equipment is warranted for a period of one year. A replacement part will be furnished in exchange for any part in a fixture, excluding lamps, which under normal use and service proves defective within five years after purchase.

This warranty is null and void if fixtures are installed in a manner other than stated normal conditions. If fixtures have been subjected to abnormal stresses, such as but not limited to, ambient room temperature or ceiling plenum temperature exceeding 90 degrees F; or if the voltage is more than 5% above the rated line voltage of the ballast; or if "insulating blankets" are installed closer than 1" from recessed fixture sides and tops or if surface units are mounted to low density combustible ceilings, thus causing overheating and ballast failure. Many fixtures are not intended to operate in temperatures below 60 degrees F. Consult factory if application requires low operating temperatures. Units returned to the factory pre-paid will be repaired or replaced at no charge if the defect is due to defects in materials or workmanship. Damage due to negligence, vandalism or other environmental conditions is not covered under this or any other stated warranties.

NO LABOR CHARGES SHALL BE BORNE BY OUR COMPANY FOR REMOVAL OR REINSTALLATION OF PRODUCTS WITHOUT PRIOR WRITTEN AUTHORIZATION.

CERTIFICATION AND AFFILIATION

All items are U.L. Listed and IBEW Union Made

ELECTRONIC BALLAST / LED EQUIPMENT WARRANTY

All ballasts/LED drivers/LED arrays used by LaMar Lighting are those of recognized manufacturers and are warranted by the component manufacturer for a period of 36-60 months from the date of manufacture. Orders calling for specific brand names of ballast will be handled on a quotation basis only. Any defects in ballasts occurring out of normal usage will be replaced on a no-charge basis, provided that such ballast failure is within the warranty period. No allowance for labor charges involved in replacing ballasts will be borne by our company. Should there be a ballast failure, advise us immediately and we will notify the ballast manufacturer of the difficulty and they in turn will notify you as to disposition of this problem. Do not proceed with repairs until authorization is received from ballast manufacturer.

ULTRASONIC OCCUPANCY SENSOR WARRANTY

The Watt Stopper,® Inc. warrants its products to be free of defects in materials and workmanship for a period of five years. There are no obligations or liabilities on the part of The Watt Stopper,® Inc. for consequential damages arising out of or in connection with the use or performance of this product or other indirect damages with respect to loss of property, revenue or profit, or cost of removal, installation or reinstallation. This warranty covers replacement parts only, no labor. Damage to the sensor components as a result of improper installation or vandalism is specifically excluded.

EMERGENCY BATTERY PACK WARRANTY (ON UNITS SO EQUIPPED)

Internal emergency packs are warranted by their respective manufacturer for five years from date of manufacture, provided that the failure is due to defects in materials or workmanship. Repair or replacement will be made at no charge if testing and inspection show that operating conditions have been within specified limits. Neither battery pack manufacturer nor LaMar Lighting will be responsible for any labor or back charges without prior written consent. This warranty is for replacement parts only, not removal or replacement labor.

**up to 75°C under normal working conditions
